

Hassan Ahmed Khan

Full-stack Developer

As a full-stack developer with a passion for design, I bring a unique perspective to every project I work on. With over 2 years of experience building robust and scalable web applications, I have a deep understanding of both **front-end** and **back-end development**.

What sets me apart is my ability to bridge the gap between technical development and user experience with my strong **programming proficiency** and **detail-oriented mindset**.
